PHOTOVOLTAIC BOX HOUSING UNITS

## BOX HOUSING UNIT - BAG & BAG SA

Metal box housing unit with a total surface of 46sq.m. within the premises of Bag & Bag SA. at Inofita, Viotia.

The project involved the construction of a metal box housing unit, which includes a storage area with shelving as well as an office area. The housing unit consists of a metal frame with hollow cross sections, polyurethane panels for its exterior inner partition panelling and marine plywood and plastic flooring for the floor of the housing unit.
