WAREHOUSES LOGISTICS FOR DIPANCO SA

New ground floor warehouse with a total area of 2140sq.m. in Acharnes, Attica. The warehouse constitutes storage and distribution center for lifting systems-storage systems and repair workshop for heavy vehicles with offices. The project includes the design, construction and erection of a steel building with pitched roof including the cladding, siding and interior partitions. Inside the building there is a steel loft of 180sq.m. where the office space is located.
